ABOUT ME

Date of Birth: April 30, 1999
Gender: Male

CAREER OBJECTIVE

A performance driven,effective communicator and a dynamic Electronics and Communication engineering student,seeking a position to utilize my skills and abilities that offers professional growth,while being resourceful,innovative and flexible.

SKILLS

- Logical Reasoning
- Leadership
- Presentation
- Fire-Fighter
- Decision making

LANGUAGES

C	C++	Python
HTML5	CSS3	JAVASCRIPT-ES6

INTERESTS

- Deep Learning
- Agricultural Research
- Blogging
- Technical writing
- Full Stack Web-Development using Node.js as backend-framework
- Ios and Andriod App Development using Flutter

ACADEMIC BACKGROUND

BACHELOR OF ENGINEERING

MVJ College of Engineering-7/2020-Present : 9.56 SGPA

Pre University Education

Sri Maruthi PU College-2015-2017 : 95.56 %

S.S.L.C

Citizens High School-2014-2015 :97.76 %

WORK EXPERIENCE

I'm a Fresher and have no working experience in the past, Some Of my works are: **PAPER AND JOURNAL PUBLICATIONS**

1).Deep Learning in MEDICAL IMAGE ANALYSIS by Geetha.R,Revanth.M(done and yet to submit as a conference paper during the International Conference on 3C's organised by MVJ College of Engineering ,Bengaluru-2020).

2).VRNS Deployed adaptive image reversible data hiding by Geetha.R,Revanth.M,Geetha.S(submitted to Elseiver Publications under the jounal of Ambeint Intelligence and Humanised Computing and is under review-3/5/2020,MVJCE(Bengaluru),SCIT(Chennai)).

PERSONAL PROJECTS

1).Designing a Active SONAR System—Developed a system that would sense its surrounding and update it graphically on a software(Processing) during its runtime covering 160 cm range at 180 degree angle coverage.

2).Designing a PCB board implemented with a Differentiator circuit—Used the software Ultiboard by National Instruments and efficiently built the circuit.

3).Designing an electronic Piano using simple Op-Amp – Used peizo-buzzers , 555-timer IC's and 741 Op-Amps to build this musical toy.

4).Designing a complete blog Website—Knowing the criterias of Typography,UID and much more.. I've deployed my website.
